

Light Industrial Skills

SKILLCHECK'S COMPUTER-BASED INDUSTRIAL SKILLS TESTS LET YOU EASILY DETERMINE WHETHER INDUSTRIAL TRAINEES AND JOB APPLICANTS HAVE WHAT IT TAKES TO BE SUCCESSFUL IN TODAY'S INDUSTRIAL JOBS.

“With the click of a mouse, SkillCheck’s advanced reporting functionality lets you analyse a candidate’s test performance against that of other test takers.”

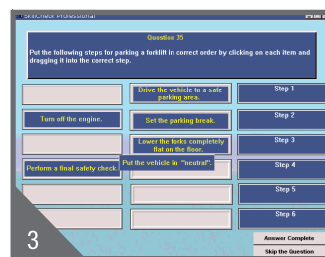

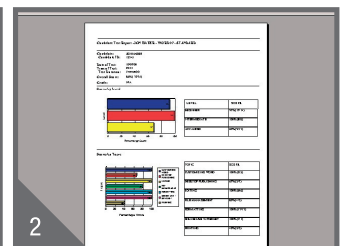

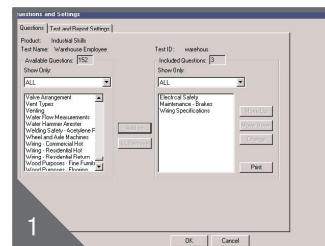

Available on the Internet or CD, SkillCheck Light Industrial Skills tests measure a candidate's general industrial knowledge, skills and abilities, safety orientation, as well as specialized knowledge in areas such as forklift, pick & pack, units & conversions, rulers, math skills and more.

Advanced Reporting for PC and Networks

With the click of a mouse, SkillCheck’s advanced reporting functionality lets you analyse a candidate's test performance against that of other test takers. SkillCheck "profile" reports can also display data from all tests taken by a single candidate, or all candidates who have taken a particular test.

Advanced Test Making for PC and Networks

With SkillCheck's advanced test-making option, you can create your own test questions and combine those questions with any SkillCheck questions to build a custom skills test that perfectly addresses the requirements of a particular job or training program.

1/ Create your own questions

2/ New advanced score reporting provides detailed analysis of an industrial job candidate's knowledge, skills and abilities.

3/ Easy to use interface including Drag & Drop.
