

Staffing Industry Packages

There are two versions of the Staffing Industry Packages – SkillCheck Professional Plus and SkillCheck Professional.

There are three major differences between these two;

- 1.) The additional number of default tests installed in the SkillCheck Professional Plus Edition,
- 2.) Extensive test customisation and test making utilities in the SkillCheck Professional Plus Edition, and
- 3.) ItemWriter, included with the SkillCheck Professional Plus Edition enables custom question authoring and the ability to combine these custom questions with those from the SkillCheck pre-programmed item library into one test.

The SkillCheck Professional **Plus** package contains tests shown here.

Staffing Industry – Professional **Plus** Edition* (55+ titles; over 120 tests - Including Microsoft Office 2003 & XP)

SOFTWARE SKILLS – Included in this pack (79 tests)
