

TechTip #14 - Setting Screen Resolution (Online users)

To set your PC's screen resolution to a suitable setting for online testing, do the following;

1. **RIGHT CLICK** anywhere on your desktop.
2. Select **"PROPERTIES"** from the pop-up window.
3. This will bring up the **"DISPLAY PROPERTIES"** Window as shown.

4. Select the **"SETTINGS"** tab - the **"DISPLAY PROPERTIES SETTINGS"** windows will appear as shown below.

5. Slide the **"SCREEN RESOLUTION"** slider to **1024 by 768**.
On some monitors, the preferred setting is **1280 by 1024**.
6. Click **"OK"** to exit back to your desktop.
