

TechTip #19 - Getting Macromedia Flash Player (Online Testing)

The SkillCheck Online Testing Service may include some content which requires the end user to have the Macromedia Flash Player (now distributed by Adobe).

To get this free download, which is a browser plug-in, go to the following site;

<http://get.adobe.com/flashplayer/>

The screenshot shows a Mozilla Firefox browser window displaying the Adobe Flash Player download page. The browser's address bar shows the URL 'http://get.adobe.com/flashplayer/'. The page content includes the Adobe logo, navigation links, and a search bar. The main heading is 'Adobe Flash Player'. Below this, there is a section for 'Install Adobe Flash Player' with a download size of 2.66 MB. Underneath, there is an 'Also install:' section with a checkbox for 'Free McAfee Security Scan Plus (optional)' which is unselected. A red circle highlights the checkbox, and a red arrow points to it from the bottom right. The 'Agree and install now' button is visible below the checkbox. The page footer includes copyright information and a TRUSTe logo.

NOTE: Do **NOT** accept the McAfee Security Scan Plus; un-tick the box.

Please note, we do not provide technical support for this plug-in.
